

Petrol-driven high performance with minimal effort and maintenance

Powerful and ergonomic, with tough construction for tougher use, the petrol-driven MC PE/DE range is ideal for cold-water cleaning in areas where electrical power is in short supply. Despite its compact size, the machine is capable of impressive high-pressure output, reducing cleaning time and resource requirements.

Self-priming and suction allow water to be drawn from a tank or river, easily reached thanks to rugged, flat-proof wheel design and high mobility across any surface. Reliable engines, provided by Honda or Kohler depending on model, ensure long equipment life and high-impact cleaning. Strong construction and high mobility are only part of what makes the MC PE/DE range unique. It also includes:

- Robust, long-lasting pumps
- Vibration-isolation technology to keep the machine still during use, which reduces wear
- Ergo quick-coupling system for easy hose-attachment/removal
- Performance models ranging from 5-13hp, enabling an exact match with your needs
- Low pressure detergent injector
